A note from our CEO

Parents always want the best for their children. And we're no different. In 1986, we designed the first UPCAT review with our would-be children in mind. Over the years, the program would improve as the test changed and competition for UP admission intensified. But, always, we would ask: would our review be good enough for our children, if we had them?

The
ULTIMATE
test of
quality in a
review
program is
whether the
company
president
would enrol
his or her
children in it.

In 2007, the BRAINS UPCAT Review was put to this ultimate test. Our son, Migs, just turning 14, was due to enter university and naturally wanted to go to UP (we, his parents, are UP alumni). We enrolled him at BRAINS, in a regular class, and at *no other review, not even tutorials.*

We thought, "Well, if this review doesn't help him, nothing will."

All he had to do was to do his best.

It was our expression of confidence in Migs. It was our expression of confidence in BRAINS.

It worked. Migs passed not only the UPCAT, but also the ACET and the DLSU entrance test. Yes, with just one review. He is now a BS Applied Physics sophomore at UP Diliman.

So, when you look for an UPCAT review, ask the company president: Did you enrol your child in your program and no other?

I know I did. I know I will, again.

BRAINS UPCAT Review. Designed to be the best.

The Program

The UPCAT is not a simple college aptitude test. It's an admissions test that assesses an applicant's fitness vs. UP academic standards. A broad knowledge base is essential. Although testing skills ("abilidad") help, they alone will not get you to pass.

So we focus on fortifying and broadening your knowledge. We reteach subjects at the level that prospective UP freshmen are expected to reach, covering all areas tested. Where a skill is assessed, we train you for it. Where subject content is needed, we teach it. And, to cover all bases, we teach you testing skills, too!

Our teachers excel in their craft. All are accomplished specialist faculty in their respective fields.

Two UPCAT simulations, problem sets and exams help you evaluate yourself, so you know how much effort you need — from start to finish. Our facilities are conducive to learning, so you can focus on your review, rather than on the crowd and heat.

Our orientation sessions help you plan your UP education, and let you make informed choices of campus and course.

Two modules to choose from... or combine!

The **Premier Edition** is a 75-hour lecture-and-exam-based review covering all the topics tested in the UPCAT. It's the program of choice for many of our UPCAT passers, some making it, too, to other top schools. Includes 2 UPCAT simulations with scoring and orientation sessions for parents and students.

The **Fast-Track** is 30 hours of drills and discussion on Math, Language, Reading and the Sciences for those who have completed the Premier Edition and for other high-performing students who just need practice on testing. Bonus: 1 post-review UPCAT simulation with scoring and orientation sessions for parents and students.

Important:

As UP alumni ourselves, we value the integrity of the UPCAT. We make no representations that it can be passed by just anyone. Our aim is to give everyone willing to work hard a last chance to pass, and to level the playing field for those who can think more, but have not been given enough opportunities to know as much. They, too, deserve a shot at a UP education.

HOW TO ENROLL

For Individuals,

1. Just come to our office with your payment and 2 pcs 1x1 picture.
